ABOUT ME

I am an aspiring front-end web developer with a strong passion for building responsive and user-friendly web interfaces. Through self-learning and hands-on projects using HTML, CSS, and JavaScript, I've gained practical experience in creating interactive websites. I enjoy problem-solving and continuously expanding my technical skills. Actively learning React.js and seeking a front-end internship, where I can contribute to real projects, collaborate with a development team, and grow professionally in a supportive environment.

EXPERIENCE

Front-End Development Projects :

As an aspiring front-end developer, I have independently built several web projects to strengthen my skills in HTML, CSS, and JavaScript, Actively learning React.js and seeking an internship opportunity to apply my skills in a real-world environment.

Projects :

HTML, CSS, JAVASCRIPT

- QR Code Generator** : Created a responsive web app using HTML, CSS, JavaScript to generate QR codes in real-time user input.
- Real-Time Clock** : I built a responsive clock using HTML, CSS, and JavaScript, it is updating live with the system time.

REACT.JS

- TextUtils-Text Manipulation Web App:** : Built a text utility web application using React.js with features like text case conversion, extra space removal, word and character count, reading time estimation, and one-click copy functionality. Focused on clean UI and efficient text processing.
- Furniture Website** : Developed a fully responsive furniture landing page using React.js and Tailwind CSS. Created reusable UI components to improve code maintainability and scalability. Implemented modern layouts and responsive navigation. Optimized the website for desktop, tablet, and mobile devices.
